

SAM Camp was exciting. I learned something new everyday and it helped me get closer to God.

- Meghan, 12

It was so much fun. I liked the music and I learned all about teamwork.

- Kaitlin, 6

My four boys really enjoyed SAM Camp! The love and friendship of the teachers and kids touched their hearts. They can't wait for this year's camp.

- Jocelyn V.

SUMMER'S BEST WEEK!

A FUN learning experience

SAM Camp

August 2-6, 2010

9am to 2:30pm

Extended Camp 3pm to 5:30pm

SAM Kids
Grades 1- 5

TEEN EDITION
Middle & High School

Discover your talents!

Sharpen your skills! Express yourself!

Learn COOL STUFF and get ahead for the next school year!

Qualified teachers and coaches in a fun and nurturing environment.

Last year's campers can't wait for this year's SAM Camp! Come join them!

Teen Edition

Middle and High School

Cool activities!
Hands-on experiments.

Wanna be a rock star?

Take a deep dive with us into the earth's crust and its –say what? – radioactive polonium halos! Explore the properties of water, minerals, fossils, and sediments.

Does it matter? What's your take?

Enter the realm of energy, matter, and spacetime.

Cool discussions: critical thinking.

Natural selection, ecology, human physiology. Find out what they have to do with you.

An exploration of all things creative!

Music. Drama. Creative Writing.

Write a poem, sing, play an instrument, or be dramatic. Now's your chance! No competition – it's your own personal expression.

Create your own masterpiece!

Sculpture.* Painting. Graphic Design.

Manipulate clay with wooden and wire tools. Explore color theory, value, and composition through acrylics.

Stop typing - start designing! Learn new media and clever techniques to sharpen your artistic skills.

*Sculpture and painting are backed by The Academy of Art University in San Francisco. Campers can attend the Saturday or Summer Art Experience hosted by the University on scholarship.

Relationships, current events and math? You bet!

Go ballistic!

Learn about launched objects, vertical motion, and the effects of air resistance. Speed graphs, launch angles, acceleration and more!

Confused by the news?

Understand political polls, sports statistics, and taste tests. Don't be fooled by the hype.

Freakanomics.

Examine the riddles of everyday life. Learn how people get what they want.

College Entrance Prep

Boost your chance of getting into an Ivy League or UC.

High school sophomores, juniors, and seniors: tips for essay writing, SATs, and college applications.

Sports Fitness

Tips from the coach.

Improve your skills - enjoy your pick: Football, basketball, baseball, or fitness.

Chess

Lightning attacks!

Basic checkmates, back rank mates, mid-game queen mates, all kinds of *mates* – sorry no *dates*!

Poison pawns!

Add to your arsenal: *forks, pins, discovery, skewers, and promotion.*

SAM JAM

Grades 1-5

ROCK, fizz, pop, float and burn! Join our mad scientist.

Cool demonstrations. Hands-on experiments.

- Heat
- Reactions
- Air pressure
- Space
- Aerodynamics
- Magnetism

Don't miss the outrageous fun! Be there!

Make metal and rubber balls float. Have balloons blow up by themselves. See water disappear before your very eyes!

An art, dance, drama and music JAMboree!

A unique artistic experience.

Puppets, painting, and poetry! Drawing, drama, drums, and dancing!

Creative ways to express yourself.

What makes you special? Sing, play musical instruments. Design a card, scrap book, and use creative stamping.

Games, puzzles, brain teasers!

Fun with facts and figures.

Bet you never thought math could be this much fun! Learn new math skills to help you be the game champion.

Sports Fitness

Coaches teach the basics.
Play and learn! Choose from: Football, basketball, baseball, or fitness.
